STATEMENT OF REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The most pertinent prior art known to the Examiner is listed on the attached forms PTO-892 and 1449. As shown by Mehl et al., Pace et al. Bouhaniche, Sonobe et al. and Peart et al. the close prior arts of record, a process of transfer printing onto polymeric materials are well-known. However, none of the prior art of record including Mehl et al., Pace et al. Bouhaniche, Sonobe et al. and Peart et al. provides sufficient suggestion or motivation to arrive at a process "**consisting of**" the specific bleaching, transfer printing, calendaring and slitting steps as required in the present claims. Accordingly, the claimed invention, as a whole, would not have been obvious to one of ordinary skill in the fiber printing and treatment art. None of the prior art of record teaches, discloses or suggests a process that **consists of** only the recited steps in the manner as those recited the present claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TRI V. NGUYEN whose telephone number is (571)272-6965. The examiner can normally be reached on M-F 8:00 AM to 5:30 PM.
